DETAILED ACTION

1. Applicant's amendment filed on December 27, 2007 has been entered and made of record.

This application is in condition for allowance except for the presence of claims 15-16 directed to a species II non-elected without traverse, see Applicant's Response to Restriction Requirement filed on July 30, 2007. Accordingly, claims 15-16 have been cancelled.

Examiner's Amendment

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

-Please cancel claims 15-16.

Allowable Subject Matter

3. Claims 1, 4-14 and 17-27 are allowed.
4. The following is an examiner's statement of reasons for allowance:

It is noted that amended claim 1 now includes subject matter previously recited in claim 3 which was indicated allowable in the previous Office action mailed 9/28/07. Specifically, the claimed features of "regressively clustering pixels of an image with respect to a color model characterizing the image by regressing functions that correlate pixels having an attribute of similar value with respect to a first primary color model and clustering pixels of the image into distinct groups based upon the regressed functions" recited at lines 2-5 of claim 1 are not taught

or suggested by the cited prior art. Likewise, claims 4-11 depend from claim 1 and thus are allowed for the same reasons.

Regarding claims 12-14 and 17, the rejection under 35 USC 101 as being directed to non-statutory subject matter has been withdrawn in view of Applicant's remarks, see lines 3-10 of page 7 and amendment to claims 12-14 and 17 to include "A tangible computer readable storage medium." Additionally, claim 12 is allowed because the claimed features of "generating a set of functions, for each segment, that correlate pixels having an attribute of similar value relative a color model, wherein each of the set of functions is based relative to a different primary color of the color model characterizing the image" recited at lines 5-8 are not taught or suggested by the cited prior art. Likewise, claims 13-14 and 17 depend from claim 12 and thus are allowed for the same reasons.

Claims 18-22 are allowed for the same reasons as set forth for claims 12-14 and 17 above.

Claims 23-27 are also allowed for the same reasons as set forth for claims 1, 4-14 and 17 above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Duy M. Dang whose telephone number is 571-272-7389. The examiner can normally be reached on Monday to Friday from 6:00AM to 2:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Eileen D. Lillis can be reached on 571-272-6928. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
